All persons on the Tule River Indian Reservation are required to stay at home and leave their households only when necessary for their health, safety, or welfare or as described below as 'essential activities' between January 21 and January 28, 2022.

Individuals may leave their place of residence only for emergencies or to perform "Essential Activities," defined herein, which primarily include activities and tasks essential to health, safety, and welfare or in the event of an emergency, as described below:

1. To engage in activities or perform tasks essential to their health and safety, or to the health and safety of their immediate family or household members (including, but not limited to, livestock and pets), such as, obtaining critical medical supplies or medication, or visiting a health care professional for an imminent health need.
2. To obtain necessary services or supplies such as canned food, dry goods, produce, pet supplies, meat, and any other household consumer products, and products necessary to maintain the safety, sanitation, and essential operation of residential living. When people need to leave home to obtain such necessities, they should do so in limited numbers and should at all times adhere to all other PHA orders including mask wearing and social distancing.
